Dogs have lived beside us for centuries as our constant companions, often providing assistance and protection, always showing their unconditional love. The first step in enjoying a long, rewarding relationship with your dog is effective training that lasts a lifetime.

Our mission is to provide training programs that result in a happy, confident and obedient dog, as well as a happy, confident and satisfied owner.

Upon completing our program you will confidently:

- Walk your dog off leash
- Control any acts of aggression
- Call your dog and be rewarded with immediate obedience
- Gain control while still showing

TRAINING

Our training methods are not only gentle and effective, they are based on pack psychology and how dogs instinctually learn. Using our time-tested methods, the dogs we train learn faster and are much less likely to lapse into old habits. Most dogs we train are ready for off-leash walks within a matter of weeks.

Precision K-9 offers a broad range of training, including Puppy Management, Obedience Training, and Behavior Modification.

We specialize in eliminating:

- * Jumping Up
- * Excessive Barking
- * Running Away
- * Destructive Behavior
- * Separation Anxiety
- * Leash Pulling
- * Soiling the House
- * Nipping, Chewing
- * Aggression
- * Other Annoyances

TESTIMONIALS

"I have taken 2 dogs through Precision K-9's training. What a difference it has made! Now we can enjoy our walks and I'm proud to have my dogs in public places. I have finally found an effective way to communicate with my dogs!"

Joan Smith, Fiona and Sybil, Nampa, ID

We were at our wit's end with our "problem dog" and were told by most trainers it would take weeks, if not months to solve Buddy's behavioral problems (Bolting out the door, running away, behavioral inappropriate urination). After only a few hours with Paula's help, we were able to walk him without a leash through distractions and temptations! No more problems, just that fast! I'd recommend this course to anyone, problem dog or not!

Cheyenne Stamp and Buddy, Boise, ID

I rescued an 18 month old Weimaraner from Weimaraner Rescue in Mtn. Home a couple of months ago. When I went to pick up Charlie, I found that he had spent a majority of the last 10 months in his crate at his previous owner's house, they had just had a baby and Charlie's energy level was too much for them to handle. So, needless to say, he was a bit of a handful. I sought the advice of Paula McCollum and Precision K-9, and what a difference! The training method is much more gentle than I thought. In a week Charlie knew his basic commands, in two weeks he was staying when asked and in three weeks I was going on walks in North Boise with Charlie off his leash! He is a completely different dog then the wired, crazy, out of control, lunatic he was when I got him. Thanks a bunch Paula and Precision K-9.
